\$600M
CONTRIBUTION

&

TELESAT

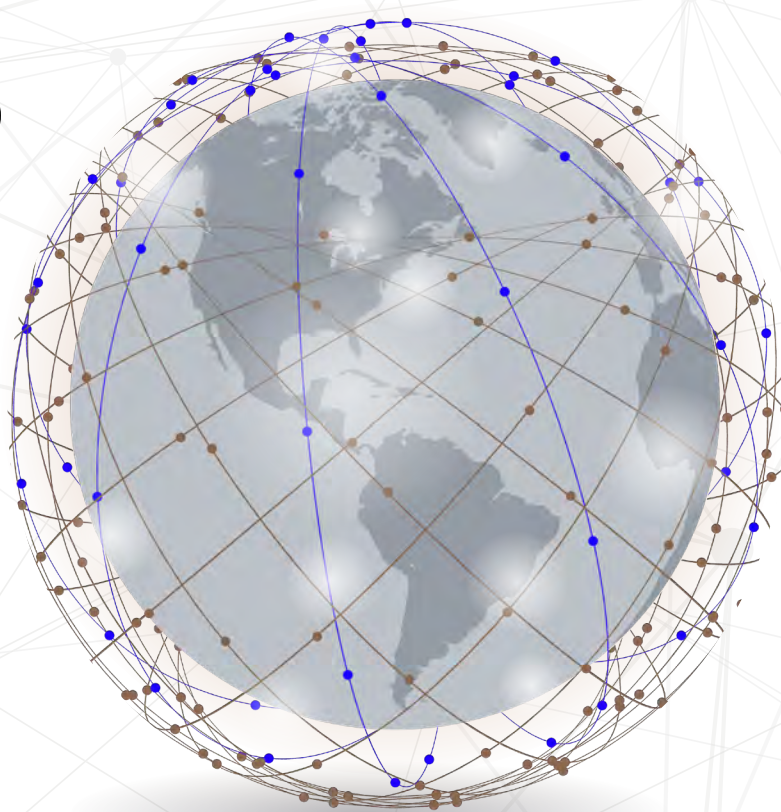

REDUCED
RATES

With the Government of Canada's \$600M contribution agreement and Telesat's reduced rates, Mobile Network Operators (MNOs) and Internet Service Providers (ISPs) now have access to a...

DEDICATED TELESAT LEO CAPACITY POOL

to expand services to unserved and underserved eligible communities in Canada, at highly reduced rates.

The Telesat LEO capacity pool is available on a first-come, first-served basis and can be contracted for up to 10 years for the following purposes:

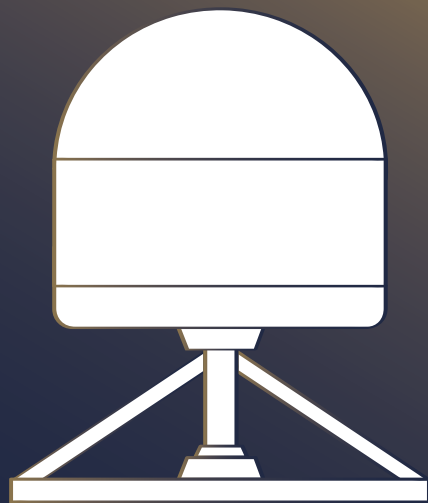

ISPs | >>>>

To offer broadband services to their End Users of at least 50 Mbps download and 10 Mbps upload with unlimited data

MNOs | >>>>

To deploy and offer the latest mobile wireless technology, currently LTE

The capacity pool and reduced purchase price are based on Service Providers deploying user terminals that are approved by Telesat. Antennas must have performance that is equivalent or better than the following:

Size (Dual reflector) >>> 100 cm

G/T >>>>>>>> 19 dB/K

EIRP >>>>>>>> 60 dBW

To learn more, contact Telesat at <https://www.telesat.com/contact-us/>

Telesat does not sell services directly to consumers. The Telesat LEO capacity pool is only available for Telecom service providers to serve qualifying communities.
